He can now say

Brendon Legault

BL

Merci

"As the RCMP has said publicly, they are no time provided a list of donors to financial institutions."

Two thoughts for you on his remarks

1) Did the dept greenlight that \$511B figure? I've never seen it before

Brendon Legault

BL

They are still reviewing

2) he may just want to briefly say something on safeguards and review.

"the emergencies act has clear safeguards built into it. This debate. The debate happening in the other place. The parliamentary committee that will review its use. The inquiry to come. That is good and appropriate for something of this magnitude."
